Dear Pacific Coast Shellfish Grower and Allied Members,

I have come to rely on the information in the PCSGA Resource Catalog regularly – whether to find contact information, upcoming events, or supplies of products and services – this document sits prominently on my shelf in easy reach. I hope you find it just as useful.

PCSGA is fortunate to have a diverse, talented, and inclusive community; I hear those sentiments from folks well beyond our region. Over the years, we’ve established this fine reputation in part because of our collective willingness to solve problems and grow in a sustainable manner. This Resource Catalog, our fifth edition, highlights those Allied Members who are proud to support shellfish growers and serves as a reminder of how broadly shellfish aquaculture is connected.

We appreciate your membership in PCSGA and all that you do to support the production of the world’s best shellfish!

Respectfully,

Margaret A. Pilaro

The 2020 Annual Resource Catalog is printed on 30% post-consumer recycled paper.

ADJUSTABLE LONG LINE SHELLFISH FARMING TECHNOLOGY

**INTRODUCING THE HEXCYL PRO SERIES SHELLFISH BASKETS**

**FEATURES and BENEFITS**
- Designed for Oysters & other shellfish
- Outstanding Durability
- 10 year minimum serviceable life
- Unique ultraglas fabrication used
- Impact resistant in subzero climates
- Suits high & low energy tidal areas
- Larger baskets (4.4 Gallons)
- Greater stock density
- Up to 40% improved productivity
- Reduced operating cost
- More even stock distribution
- Suits a wide range of shellfish growth sizes
- 5 Basket sizes: 3, 5, 10, 15 and 20mm mesh sizes
- Access door at both ends of basket
- Quick simple assembly
- Each basket handles up to (22lb) of stock
- Multiple attachment options and positions
- Suspension clips fold flat for transport and storage
- Line and accessories also available
