Dear Pacific Coast Shellfish Grower and Allied Members,

Some of you have been involved in the shellfish community for decades and others are fairly new. Either way, I hope you find the contacts and information assembled in this PCSGA Resource Catalog to be an essential part of your days. I often reach for my Catalog to find out whom I should contact about an issue, or where to find certain products and services.

Over the decades, PCSGA has amassed a fabulously diverse and talented community made of shellfish growers and those businesses and entities who support growers through a variety of products and services. This community, combined with our collective inquisitive nature, our willingness to offer assistance to others, and our ability to adapt, has served us well for generations and will allow us to navigate the full suite of challenges that lie ahead.

This Resource Catalog, our sixth edition, highlights PCSGA’s Allied Members who are dedicated to the success of shellfish growers. It demonstrates the cohesion within our community and our unified commitment to provide the world with delicious, nutritious shellfish!

We appreciate your membership with PCSGA and your unwavering support of our shellfish community.

Respectfully,

Margaret A. Pilaro

The Shellfish Growers Climate Coalition brings together 170+ shellfish businesses from across the country and supply chain. Join us in sharing stories of climate impacts, advocating for smart climate policies, and helping sustain the shellfish industry for future generations by adding your name to our growing roster of members.

“We believe that it’s essential to raise awareness of climate change and hope that by telling our story, we can encourage other people in the industry to act.”

ADJUSTABLE LONG LINE SHELLFISH FARMING TECHNOLOGY

INTRODUCING the HEXCYL PRO series SHELLFISH BASKETS

by

HEXYL SYSTEMS

FEATURES and BENEFITS

- Designed for Oysters & other shellfish
- Outstanding durability
  - 10 year minimum serviceable life*
  - Unique ultra tough plastics used
  - Impact resistant in sub zero climates
- Suits high & low energy tidal areas
- Larger Baskets (6.6 Gallons)
  - Greater stock density
  - Up to 40% improved productivity
  - Reduced operating cost
- More even stock distribution
- Improved stock quality
- Suits a wide range of shellfish growth sizes
- 5 Basket sizes - 3, 5, 10, 15 and 20mm mesh sizes
- Access door at both ends of basket
- Quick simple assembly
- Each basket handles up to (22lb) of stock
- Multiple attachment options and positions
- Suspension Clips fold flat for transport and storage
- Line and accessories also available
- Tested and proven on our own farms

5 Year Guarantee

www.hexylsystems.com.au

Improved Bottle Silos

Seamless construction using PEGT modified acrylic resin

- Near clarity of pure acrylic
- More resistant to cracking
- 4” diameter; 21.5” tall
- 3/4” FNPT water connection
- Neoprene O-ring marble seat reduces leakage during handling
- Deep discharge spout eliminates gasket / pipe / tubing
- Allows higher flow rates & easier cleaning
- Includes a 1 3/8” marble

Custom built nursery systems available

6 WAYS TO ENSURE YOUR HATCHERY’S SUCCESS

1. Always available refrigerated and frozen algae concentrates
2. Superior nutrition, intact whole-cell feeds
3. Consistent and reliable results
4. Easy to use
5. Friendly customer service and technical support
6. Superior shipping and logistics

Shellfish hatcheries around the world rely on our nutritious Instant Algae® for their success. It is phototrophically grown, highly concentrated marine microalgae produced in our land-based, biosecure RAS facility.

Tim Reed, President, CEO and Founder of Reed Mariculture, Inc.

Freshtag™ Time/temperature labels calibrated to mirror bacteria growth or customize for your temperature profile.

For perishable catering products:

- Validates Caviar freshness and quality
- Engineered to C. botulinum toxin for ROP/MAP
- Cold chain monitoring for shellstock

Using stoplight technology, Vitsab Freshtag™ labels stay green for most of their life. They turn yellow then red, like a stoplight, if temperature abuse per formulation is detected.

Mark Winowich  Director, Business Development  Phone: +1(206)962-0437  mark.winowich@vitsab.com
